Larger up to \$12.00		
plicata, GIANT ARBORVITAE.	80'	
3-4 ft.	4.00	36.00

Hemlocks are a specialty at Kelsey-Highlands Nursery. We have thousands of fine specimens, in a wide range of sizes, both of the Canada Hemlock and our famous introduction, the Carolina Hemlock. As specimens in border planting or for fine hedges they are invaluable.

HV. stands for Horticultural Variety

TSUGA — HEMLOCK

canadensis, CANADA HEMLOCK.	40'	
2-3 ft.	3.00	27.00
3-4 ft.	4.00	36.00
4-5 ft.	5.75	51.75
5-6 ft.	7.50	67.50
6-7 ft.	10.00	90.00
7-8 ft.	14.00	126.00
8-10 ft.	20.00	180.00

caroliniana, CAROLINA HEMLOCK. 50'

Dark, dense tufted foliage on sweeping pendulous branches. This "aristocrat" of conifers is even hardier than the Canada Hemlock and seems to thrive in locations where the latter becomes thin, yellow and unsightly. It is better in trying city atmospheres and near the shore. A Kelsey Introduction.

2-3 ft.	3.50	31.50
3-4 ft.	5.00	45.00
4-5 ft.	7.00	63.00
5-6 ft.	9.00	81.00
6-7 ft.	13.50	121.50
7-8 ft.	18.00	162.00
8-9 ft.	25.00	225.00
9-10 ft. heavy	35.00	
10-12 ft. heavy	45.00	
12-14 ft. heavy	60.00	
14-16 ft. heavy	80.00	
16-18 ft. heavy	110.00	

Extra Specimens up to \$150.00

BROADLEAF EVERGREENS

Andromeda, Kalmias, Leucothoe, Rhododendrons, etc.

Mass plantings of Rhododendrons, Mountainlaurel and Andromedas, with "filler" or "edging" plants, such as Leucothoe, Scotch Heather, Rose Daphne and Sand-myrtle, are very desirable and probably show these Broadleaf Evergreens at their best. Such ground covers as Bearberry, Canby Pachistima and Japanese Pachysandra carpet the shady places luxuriantly.

To successfully grow these beautiful Broadleaf Evergreens, see that the soil is peaty, acid and well drained. Use a permanent mulch of Oak or other hardwood leaves (except Maple). A northern exposure is desirable, otherwise overhead leafy shade is essential. Ferns are at home in the Rhododendron bed and edgings of them or of Violets, Dicentras and a host of beautiful low ground covers give variety and beauty. Azaleas and Berry-bearing Shrubs may be used freely in the planting with charming effects.

	Each	10	100
ANDROMEDA glaucophylla,			
DOWNY ANDROMEDA 1-2'			
9-12 in.	1.00	9.00	
12-15 in.	1.50	13.50

AZALEAS

We list only the native and most hardy exotic varieties. These acid-soil loving plants mass well with the broad-leaf evergreens and are distinct and beautiful additions to any planting. Though not evergreens they are closely related to the Rhododendrons and require similar soil conditions and care.

arborescens , SWEET AZALEA.		8'	
15-18 in.	2.25	20.25	
18-24 in.	3.00	27.00

Malus, Flowering Crabapple

The Flowering Crabapples have few rivals among gorgeous spring flowering trees and shrubs. At the Arnold Arboretum one of the most important events of the year is the blooming of the Crabapples, followed by the showy fruit in Autumn. Most varieties are of greatest value as feed in winter for Pheasants, Grouse and other birds, or for jellies and preserves.

The sizes we can supply follow the descriptions of each variety. Prices are for strong plants. For extra specimens price is made to cover increased value.

	Each	10
3-4 ft.	1.50	13.50
4-5 ft.	2.25	20.25
5-6 ft.	3.00	27.00
6-8 ft.	5.00	45.00

Extra Specimens \$6.00 up.

Varieties marked X are hybrids and will not come true from seed.

X arnoldiana, ARNOLD CRABAPPLE, 8'. Rose-colored. Sizes 3-4 ft., 4-5 ft., 5-6 ft.

X atrosanguinea, CARMINE CRABAPPLE, 15'. Carmine. Sizes 4-5 ft., 5-6 ft., 6-8 ft.

baccata, SIBERIAN CRABAPPLE, 30'. White. Green or reddish fr. Sizes 3-4 ft., 5-6 ft., 6-8 ft.

baccata mandshurica, MANCHURIAN CRABAPPLE, 15'. White, fragrant. Dark scarlet fr. Sizes 3-4 ft., 4-5 ft., 5-6 ft.

X Dolga CRABAPPLE, 15'. Red edible fr. Sizes 3-4 ft., 5-6 ft.

floribunda, JAPANESE FLOWERING CRABAPPLE, 15'. Bright pink buds followed by snowy white fl., small yellowish fr. Sizes 3-4 ft., 4-5 ft., 5-6 ft., 6-8 ft.

floribunda, HV. KELSEY CRABAPPLE. Offered after years of testing. Highly recommended as one of the most ornamental Flowering Crabapples. Bright pink buds opening to purest white flowers, and in greatest profusion. Will eventually reach 20 or 25 feet in height with equal spread. Sizes 3-4 ft. \$2.00 each, 4-5 ft. \$3.00 each, 5-6 ft. \$5.00 each.

hupehensis (theifera) TEA CRABAPPLE, 20'. Fragrant fl., rose-red in the bud and later almost white. Sizes 3-4 ft., 4-5 ft., 5-6 ft., 6-8 ft.

X hopa, REDFLOWERING CRABAPPLE, 15'. Entirely covered with rose-colored blossoms in May. Fr. red inside and out. Very hardy. Sizes 3-4 ft., 5-6 ft.

ioensis, PRAIRIE CRABAPPLE, 15'. Single pink. May. Native Western crabapple. Sizes 4-5 ft., 5-6 ft.

ioensis, HV. BECHTEL CRABAPPLE (plena), 15'. June. Double pink fl. Size 3-4 ft. \$2.00 each.

micromalus, MIDGET CRABAPPLE. Showy pink, 8'. Size 3-4 ft.

X pumila, REDVEIN CRABAPPLE (niedzwetzkyana), 20'. Red branches, leaves and fr. Sizes 3-4 ft., 4-5 ft., 5-6 ft.

X purpurea, ELEY FLOWERING CRABAPPLE (eleyi), 18'. Sizes 3-4 ft., 4-5 ft., 5-6 ft.

robusta, CHERRY CRABAPPLE, 30'. Sizes 3-4 ft., 4-5 ft., 5-6 ft.

MALUS, FLOWERING CRABAPPLE (Con.)

sargenti, SARGENT CRABAPPLE, 6'. Pure white with yellow anthers. Scarlet fr. Size 3-4 ft.

X scheideckeri, SCHEIDECKER CRABAPPLE, 15'. Rose-colored fl. Sizes 3-4 ft., 4-5 ft.

toringoides, CUTLEAF CRABAPPLE, 15'. White. Pear-shaped red fr. Sizes 4-5 ft. \$3.00 each, 5-6 ft. \$4.00 each.

X zumi, ZUMI CRABAPPLE, 15'. Pink in bud, becoming white, red fr. Sizes 5-6 ft., 6-8 ft.

CHELONE lyoni, PINK TURTLEHEAD. 2'

CHRYSANTHEMUM

arcticum, ARCTIC CHRYSANTHEMUM. 18"

maximum, PYRENEES CHRYSANTHEMUM.

sibericum (*coreanum*), KOREAN CHRYSANTHEMUM. 2-4 ft. Oct.-Dec.

This hardy species introduced by Harlan P. Kelsey. More recently it has been used as a parent for the beautiful Korean Hybrids. The original species with its profuse large white fl. and golden centers is still recognized as one of the most beautiful and effective garden fl. 35¢ each, \$3.00 per 10.

CHRYSANTHEMUM, KOREAN HYBRID. Kelsey Introduction.

HV. JANE KELSEY. Large single fl. in great profusion on long stems, lustrous deep pink, Oct.-Nov. Cut flowers last two weeks or more.

CHRYSANTHEMUM, KOREAN HYBRIDS. Introductions of Bristol Nurseries, Inc. Prices 30¢ each, \$2.25 per 10, except as otherwise noted.

APOLLO. Shades of bronze-red, old-gold and salmon.

CERES. Comb. of old gold, chamois-yellow and coppery bronze.

DAPHNE. Pink, golden stamens.

HEBE. Soft lavender-pink, golden yellow center.

INDIAN SUMMER. Vivid glowing orange. Lg. double fl.

INNOCENCE. Single dwarf. Pure white.

KING MIDAS. Large, fully double soft yellow fl. Late Sept.

LOUISE SCHLING. Semi-double. Salmon-red, changing to bronze-salmon.

PIGMY GOLD. Clear golden yellow button-like fl.

ROMANY. Carmine-red, with fine bronze tones.

SATURN. Orange and bronze, golden yellow center.

THE MOOR. Wine-red, fully double.

VENUS. Lilac-pink, rose-lavender shading.

VULCAN. Opens carmine-red, changing to bronze-crimson.

CHRYSANTHEMUM, NEW HARDY FALL. Hort. Vars.

DEAN KAY. Bright clear pink. 75¢ each.

TREASURE TROVE. Clear double yellow.

ORANGE GLOW. Brilliant burnt orange.

EARLY BRONZE. Rich bronze.

JEAN TREADWAY. Pink.

RUTH HATTON. Pompon, clear ivory white.

RUTH MARION HATTON. Bright canary yellow.

VIVID. Rich rosy-crimson.

CHRYSANTHEMUM, CUSHION. Popular dwarf Hort.

Vars. Not over 1' high, 2' or more across. Sept. to frost a glorious mass of double fl. 50¢ each, \$4.00 per 10.

AMELIA. (*Azaleamum*).

BRONZE CUSHION.

NEW RED.

PINK CUSHION.

YELLOW CUSHION.

WHITE CUSHION.

CIMICIFUGA

- americana*, AMERICAN BUGBANE. 4'
foetida simplex, KAMCHATKA BUGBANE. 3'. 75¢
each, \$6.00 per 10.
racemosa, COHOSH BUGBANE. 4'

CLINTONIA borealis, YELLOW BEADLILY. 12"

CONVALLARIA majalis, LILY OF THE VALLEY. 8"

COREOPSIS

- grandiflora*, BIGFLOWER COREOPSIS. (1-2 ft.)
rosea, ROSE COREOPSIS. 1'
tripteris, ATLANTIC COREOPSIS. 2'

DELPHINIUM — LARKSPUR

HV. GIANT PACIFIC HYBRIDS. 3'-5'. June-Sept.
Our seed taken from an unusual select strain. Shades
of blue, double and semi-double.

HV. GIANT WHITE PACIFIC HYBRIDS. 3'-5'.
June-Sept. Huge spikes of pure white fl., double
and semi-double.

Pot Grown \$1.25 each \$10.00 per 10

DIANTHUS

- alpinus*, ALPINE PINK. 4". 40¢ each, \$3.50 per 10.

	<i>Viburnum wrighti</i> , Brilliant red

LIST OF PLANTS FOR SPECIAL ENVIRONMENTS

PLANTS SUITABLE FOR ROCK GARDENS

EVERY Rock Garden has problems of its own. No list of this nature can in any way be complete—it can merely suggest a few of the varieties that are being successfully used in the finest American Rock Gardens. Herbaceous perennials are not included, as use of the various kinds depends on the type and size of the rock garden. We will gladly make recommendations of perennials to use for given types of rock garden.

<i>Aesculus discolor koehnei</i>	<i>Juniperus sabina</i>
<i>Amelanchier stolonifera</i>	<i>Juniperus sabina</i> HV. Tamarix
Floweringquince	Savin Juniper
<i>Arctostaphylos uvaursi</i>	<i>Leiophyllum lyoni</i>
<i>Azalea pentaphylla</i>	<i>Pachistima canbyi</i>
<i>Azalea poukhanensis</i>	<i>Picea</i> , HV. Dwarf Alberta
<i>Calluna</i> , in variety	Spruce
<i>Chaenomeles lagenaria</i> HV.	<i>Pieris floribunda</i>
pygmaea	<i>Pieris japonica</i>
<i>Cotoneaster horizontalis</i>	<i>Pinus mugo mughus</i>
<i>Cotoneaster microphylla</i>	<i>Rhododendron catawbiense</i>
<i>Cotoneaster adpressa praecox</i>	compactum
<i>Daphne cneorum</i>	<i>Rhododendron laetivirens</i>
<i>Daphne mezereum</i>	<i>Rhododendron mucronulatum</i>
<i>Dicentra eximia</i>	<i>Taxus canadensis</i>
<i>Epigaea repens</i>	<i>Taxus cuspidata</i> (upright form)
<i>Erica carnea</i>	<i>Taxus cuspidata nana</i>
<i>Euonymus fortunei radicans</i>	<i>Taxus media</i> HV. Hicks Yew
<i>Forsythia ovata</i>	<i>Thuja occidentalis</i> HV.
<i>Juniperus chinensis sargentii</i>	Pyramidal Eastern A.
<i>Juniperus communis depressa</i>	<i>Thuja occidentalis</i> HV. Tom-
<i>Juniperus communis saxatilis</i>	thumb Eastern A.
<i>Juniperus horizontalis</i>	<i>Vaccinium vitisidaea minus</i>
<i>Juniperus horizontalis plumosa</i>	

GROUND-COVER PLANTS

GROUND-COVERS are just what their name implies—they cover the ground. Some spread by sending out trailers that take root, some have roots that spread and send up new top growth, and others merely grow more or less procumbent, spreading out as they enlarge to cover a greater area of ground each year. Many, such as the Rose Daphne and the Heathers, have beautiful flowers. The Evergreens and Broadleaf Evergreens carpet the ground with green throughout the year.

May we help you with your selection of a ground cover that will suit your particular location and conditions.

<i>Ajuga genevensis</i>	<i>Hosta caerulea</i>
<i>Ajuga reptans alba</i>	<i>Hosta japonica</i>
<i>Alyssum saxatile compactum</i>	<i>Juniperus chinensis sargentii</i>
<i>Arctostaphylos uvaursi</i>	<i>Juniperus communis depressa</i>
<i>Asarum shuttleworthii</i>	<i>Juniperus horizontalis plumosa</i>
<i>Calluna</i> , in variety	<i>Juniperus sabina</i> HV. Tamarix
<i>Celastrus orbiculata punctata</i>	Savin Juniper
<i>Celastrus scandens</i>	<i>Lonicera japonica halaliana</i>
<i>Chrysanthemum Sibericum</i>	<i>Lysimachia nummularia</i>
<i>Convallaria majalis</i>	<i>Pachistima canbyi</i>
<i>Cotoneaster horizontalis</i>	<i>Pachysandra terminalis</i>
<i>Daphne cneorum</i>	<i>Parthenocissus tricuspidata</i>
<i>Diervilla lonicera</i>	<i>Vinca minor</i>
<i>Erica carnea</i>	<i>Shortia galacifolia</i>
<i>Euonymus fortunei radicans</i>	<i>Phlox subulata</i>
Ferns, in variety	<i>Vinca minor</i> HV. White
<i>Galax aphylla</i>	Periwinkle
	<i>Xanthorhiza apiifolia</i>

PLANTS FOR SEASHORE CONDITIONS

IN PLANTING near the shore it is advisable to select plants that will withstand the attacks of ocean winds and salt spray. Only comparatively resistant kinds are listed here. Many others will do well with slight protection.

<i>Abies concolor</i>	<i>Juniperus chinensis</i> HV.
<i>Acer rubrum</i>	Pfitzer Juniper
<i>Actinidia arguta</i>	<i>Juniperus communis depressa</i>
<i>Amelanchier</i> , in variety	<i>Juniperus horizontalis plumosa</i>
<i>Arctostaphylos uvaursi</i>	<i>Juniperus virginiana</i>
<i>Berberis</i> , in variety	<i>Larix</i> , in variety
<i>Betula</i> , in variety	<i>Ligustrum</i> , in variety
<i>Calluna</i> , in variety	<i>Lonicera japonica halliana</i>
<i>Celastrus orbiculata punctata</i>	<i>Lonicera morrowi</i>
<i>Myrica pennsylvanica</i>	<i>Lonicera tatarica</i> , in variety
<i>Picea asperata</i>	<i>Malus</i> , in variety
<i>Picea engelmanni</i>	<i>Pinus nigra</i>
<i>Picea glauca</i>	<i>Pinus resinosa</i>
<i>Picea jezoensis</i>	<i>Populus</i> , in variety
<i>Picea pungens</i>	<i>Prunus</i> , in variety
<i>Picea pungens glauca</i>	<i>Rhamnus</i> , in variety
<i>Picea pungens</i> HV. Koster	<i>Rhus</i> , in variety
Blue Spruce	<i>Rhododendron laetivirens</i>
<i>Pinus mugo mughus</i>	<i>Rosa</i> , in variety
<i>Clethra</i> , in variety	<i>Salix</i> , in variety
<i>Cornus</i> , shrub forms	<i>Sorbus</i> , in variety
<i>Cotoneaster</i> , in variety	<i>Spiraea</i> , in variety
<i>Crataegus</i> , in variety	<i>Taxus cuspidata</i>
<i>Erica carnea</i>	<i>Taxus cuspidata nana</i>
<i>Forsythia</i> , in variety	<i>Ulmus americana</i>
<i>Hydrangea</i> , in variety	<i>Vaccinium</i> , in variety
<i>Hydrangea petiolaris</i>	<i>Viburnum</i> , in variety
<i>Ilex glabra</i>	<i>Wistaria sinensis</i>
	<i>Wistaria sinensis alba</i>

PLANTS FOR MOIST SOILS

MOST plants will not stand a location that is quite moist a great deal of the time. These varieties, however, do not seem to mind considerable moisture if proper drainage is provided. In many cases it increases their growth and gives them finer foliage.

Care must be used in choosing varieties that will best suit your particular location and we are prepared to help you plan correctly.

<i>Acer rubrum</i>	<i>Iris sibirica</i>
<i>Aronia arbutifolia</i>	<i>Iris sibirica alba</i>
<i>Azalea nudiflora</i>	<i>Kalmia angustifolia</i>
<i>Calopogon pulchellus</i>	<i>Leucothoe catesbaei</i>
<i>Chelone lyonii</i>	<i>Mitchella repens</i>
<i>Cimicifuga americana</i>	<i>Nyssa sylvatica</i>
<i>Clethra alnifolia</i>	<i>Quercus palustris</i>
<i>Cypripedium parviflorum</i>	<i>Salix</i> , in variety
pubescens	<i>Thuja</i> , in variety
<i>Epigaea repens</i>	<i>Tradescantia virginiana</i>
Ferns, in variety	<i>Tradescantia virginiana</i> HV.
<i>Ilex glabra</i>	White
<i>Ilex verticillata</i>	<i>Ulmus americana</i>
<i>Iris kaempferi</i>	<i>Vaccinium</i> , in variety
<i>Iris pseudacorus</i>	<i>Viburnum dentatum</i>
	<i>Viburnum trilobum</i>

KELSEY'S HORTICULTURAL AND LANDSCAPE SERVICE

Customers of Harlan P. Kelsey, Inc. will find our various branches of service of real value throughout the year. Some special features of this service are described below.

- 1. Renovation of Gardens and Plantations.** Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertilization, the addition of a few plants, etc. Let us help you make your garden more interesting and enjoyable.
- 2. Hedges, Windbreaks and Screens.** The growing of fine material for evergreen and deciduous hedges, windbreaks and screens is a specialty at Kelsey-Highlands Nursery. For protection from harsh winds, for masking unsightly views and to insure privacy the larger screens are often invaluable. Lower hedges and borders are pleasing essentials in many garden designs. We will gladly submit recommendations and quotations for individual problems. A far wider list is available for these uses than is generally supposed.
- 3. Moving Large Specimen Trees.** Our tree moving equipment is especially designed for safely transplanting large Evergreens or Shade Trees up to 1 foot in diameter. We have handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbances to the root systems, largely eliminating risks.
- 4. Plantings for Birds.** Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. Birds are a constant joy and entertainment in the garden—a bird-feeding station in a corner of your garden dedicated to bird life will be a continuing delight. See Page 35 for Berry Bearing Plants.
- 5. Landscape Service.** Harlan P. Kelsey, Inc. offers a skilled service devoted to the creation of finer landscapes. After a careful study of each individual problem we recommend a development which will fit the particular location so as to combine beauty and convenience with economy of construction and maintenance. Our background of sound designing and horticultural experience assures such results.

We are particularly interested in the small home grounds. Consult us freely whether your problem is large or small. No charge is ordinarily made for a preliminary conference at our office, or on the grounds where most effective results are ordinarily obtained. If, however, considerable time or distance is involved a minimum charge is made to cover costs.

TERMS AND CONDITIONS OF SALE

Nomenclature. "Standardized Plant Names" is authority for names used in this catalog.

Prices in this catalog cancel all previous lists and quotations and are subject to change without notice. Retail prices include packing, except for bulky or unusual shaped plants or when special methods are requested; prices are f.o.b. East Boxford, Massachusetts.

All Orders Are Accepted Subject To prior sale and to condition of stock at delivery date, under the following terms and conditions:

Grade. We supply a standard grade of stock. Unusual specimen material or plants specially selected by customers at the nursery will be charged for according to value, irrespective of the catalog list price.

We Warrant all plants to be true to name, full count, up to grade, and in good condition when shipped.

Rates. Lots of 5 and 25 of a kind and size will be furnished at the 10 and 100 rates respectively.

Plant Insurance. We do not guarantee the life of any plant purchased, as we have no control over after-treatment or weather conditions, and we will not replace stock without charge. On request, we insure stock planted by us for a specified period at a rate covering the estimated hazard. Such insurance however is void unless account is paid in full within 30 days from date of invoice, except when special arrangements are agreed to by us in writing.

Terms Cash with Order or satisfactory reference from unknown customers. Established credit accounts are due in 30 days from date of invoice. C.O.D. orders must be accompanied by one-third of the amount. Overdue accounts are subject to interest at 6 per cent.

Shipping Instructions should accompany order. State whether by Freight, Express, Parcel Post or Truck, and give exact destination. Otherwise we use our best judgment but assume no responsibility thereby. We deliver by truck all over New England and nearby states at reasonable rates.

All goods are at purchaser's risk after delivery to forwarding companies in good condition. Claims for damage while in transit must be made against the delivery company.

Claims for errors must be made in writing within five days after receipt of goods. Any mistake or fault on our part will be gladly rectified. Stock delivered as per order and in good condition is not returnable.

Carolina Hemlock—Tsuga Caroliniana

For sheer graceful beauty, we do not believe its equal can be found among all the coniferous evergreens. It was introduced to cultivation by Harlan P. Kelsey, and Prof. Sargent of the Arnold Arboretum considered the Carolina Hemlock "the handsomest conifer we can grow in New England." It is unique in habit, with dark, dense tufted foliage on sweeping pendulous branches. Hardier and more adapted to trying city atmospheres than the Canada Hemlock, it also seems to thrive in southern latitudes where the latter becomes thin, yellow and unsightly. For sizes and prices see page 7.

Standardized Plant Names

*Prepared by the Editorial Committee of the
American Joint Committee on Horticultural
Nomenclature*

HARLAN P. KELSEY, *Chairman*
WILLIAM A. DAYTON, (*U. S. Dep. of Agri.*)

is authority for all Scientific and Common Names in
this Catalog.

This check-list includes more than 90,000 entries
compiled with the assistance of the United States De-
partment of Agriculture and more than 200 authori-
ties in the fields of agriculture, horticulture, pharm-
acy, wildlife, lumber, etc.

One simple alphabetical arrangement complete with
cross-reference, including 62 special plant lists.
